

## **OWN AGENCY PLACEMENTS**

For MSW I (Foundation) student *only*:

All alternatives must be explored for the student to complete the field practicum in a setting other than their employing agency. However, if the employment setting can meet certain conditions, it is possible for first year MSW students (MSW I) to complete the practicum in their place of employment with the permission of the MSW Field Coordinator. Interested students must request the Practicum Employment Application from the program assistant, and submit the completed forms by the time of application to field.
