

EMPLOYMENT SETTING PRACTICUM

Students should complete their field practicum in a setting other than their employing agency. However, if all options have been explored and the employment setting can meet certain conditions, it is possible to complete the practicum in their place of employment with the permission of the BSSW or MSW Field Coordinator. *The employment setting practicum must meet certain criteria (see Employment Setting Practicum Application or BSSW/MSW Field Manual) in order to be approved.* Interested students must download the appropriate Employment Setting Practicum Application from the IPT homepage and submit the completed forms by the time of application to field.

For any questions, please contact sowpracticum@fiu.edu or 305-348-3881.
